ADD-ON SERVICES

BTP Business process integration

With SAP BTP Integration Suite, you can integrate additional BTP-based processes with external systems seamlessly.

Robotic Process Automation (RPA)

Using SAP BTP standard bots and RPA, you can automate additional data entry processes efficiently.

Benefits by Business Functions

Reporting

- Real-time insights for quick decisions
- Scales with large data loads
- Easy reporting and visualizations

Finance

- Cut manual work with integration
- Boost accuracy with automation
- Simplify compliance

Sales

- Automate tasks, boost sales
- Gain insights with analytics
- Forecast demand, refine strategy

Purchasing

- Improve supplier insights
- Optimize inventory
- Manage global purchasing

Manufacturing

- Scale for higher production
- Adapt to demand shifts fast
- Improve inventory, cut lead times

Platform

- Integrate org-wide via BTP
- Automate for efficiency
- Cut IT costs with cloud

CUSTOMER QUOTES

The major benefit of our journey to SAP S/4HANA Cloud Public Edition is end-to-end data consistency across the entire process. The data you enter at the start is the same as the data at the end, and everything is processed in the same way.

Nino Buchholz

Director of Business Applications, Serrala Group GmbH

SAP S/4HANA Cloud Public Edition has enabled us to automate our process from production to delivery. In an environment with frequent policy changes and rapidly shifting market demands, the resulting agility and efficiency have helped us gain greater trust and more collaboration opportunities with customers worldwide.

Luo Jianyong

Director of Business Transformation and IT, Guangdong FUWO Intelligent Manufacturing Co. Ltd.
